## Introducing the CDN Quarterly

The Coin Dealer Newsletter is pleased to present our subscribers with still another benefit: the **CDN Quarterly**. One section of the **Quarterly** will be sent every month to our CDN subscribers (along with their **CDN Monthly Supplement**), and the contents of the **Quarterly** will rotate every three months; the following chart outlines the publishing schedule:

**Quarterly 1:** published Jan.; Apr.; July; Oct.; will contain Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

**Quarterly 2:** published Feb.; May; Aug.; Nov.; will contain Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

**Quarterly 3:** published Mar.; June; Sept.; Dec.; will contain Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the **Quarterly** will regularly contain 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

As part of their subscription package, subscribers to the CDN will now receive current pricing information on every regular issue U.S. coin; in fact, it will be like receiving four copies of an annual pricing guide, with the advantage that prices will be up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving coin issues.

The first two sections of the **CDN Quarterly** are being sent together this month only. In March, the third section will be mailed with the **CDN Monthly Supplement**. The subsequent rotation will follow the schedule above.

## Using the CDN Quarterly

The **CDN Quarterly**, like the weekly *Coin Dealer Newsletter* and the *CDN Monthly Supplement*, reports prices based on national dealer-to-dealer buying and selling information. These wholesale prices are the result of our monitoring all possible transactions, and offers to buy and sell coins on a *sight-seen* basis. The coins may be certified or "raw" (uncertified), but the grading **must adhere** to the current leading standard. Prices reported also consider activity in the certified *sight-unseen* market; prices for a "Raw" coin may be higher or lower than for a certified specimen due to current market conditions. The **CDN Quarterly** prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally be used to raise **CDN Quarterly** prices, and a lower Sell will normally be used to lower them.

It should be emphasized that the **CDN Quarterly** reports the *highest wholesale* prices seen nationally; these prices assume a *willing and knowledgeable* buyer. The actual buying offer received from a dealer for a rarer coin depends largely on the current availability of a customer for such a coin; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must take this into account before purchasing on behalf of inventory. Rarity will also play a key role in dealers' selling prices; a dealer may wish to receive a substantial premium for extremely scarce coins. On rare issues, the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These *wholesale* prices should not be misinterpreted by *retail* clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples of that particular range. Numismatists realize that there is wide variation in looks and attractiveness within a particular grade, and that a coin must stand on its own merits. This is the heart of the concept of *sight-seen* trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Additionally, prices will be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors which go into the final grading of a coin. Prices listed are for 'no-problem' coins.

Where no reliable pricing information is available, a tilde ("~") will be placed in the charts. An "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

AMERICA'S RARE COIN &  
PRECIOUS METALS FIRM

**1-800-877-7633**

# During The Past Fifteen Months, Over 20,000 Coins Have Been Sold On The U.S. Rare Coin Exchange!

*That's because the listings on the Exchange go to the Buyers!  
Dealers, collectors and investors, who are active purchasers of  
rare coins turn to the U.S. RARE COIN EXCHANGE for the coins they want.*

If you're a seller of coins, it pays to go to the buyers. And buyers are reading the Market Express, published by the U.S. Rare Coin Exchange. It pays to list your inventory where it will sell, and the Rare Coin Exchange sells coins.

## **Best Of All, It's Easy To Participate! With Or Without A Computer.**

If you have an IBM-compatible computer, we'll send you free software to get you started. Simply copy the disks onto your computer, and browse through the thousands of listings. When you're ready to list, send only \$150 per month to list as many coins as you'd like. Plus, listers get a free copy of the Rare Coin Market Express, a printed version of the entire database once a week by first class mail. (A \$99.00 value.)

If you don't have an IBM compatible computer, no problem! For only an additional \$50 per month, (for a total of \$200), we'll do your input and maintenance for you. Just fax or mail us a list of coins you'd like to list, and they'll appear on computer screens across the country and in the next issue of the Rare Coin Market Express.

The \$25 million Garrett collection for The Johns Hopkins University, the \$20 million Norweb Collection, and the \$12.4 million Eliasberg Collection of U.S. Gold Coins.

## UNEQUALED WORLDWIDE CLIENTELE

**T**he same bidders who have set world's records will be bidding on your coins, too. Our unequalled worldwide clientele of industrialists, capitalists, financiers, museums, investors, and leading numismatists will compete for your material. ## The CDN Quarterly Sequence

The Coin Dealer Newsletter is pleased to present our subscribers with still another benefit: the CDN Quarterly. One section of the Quarterly will be sent every month to our CDN subscribers (along with their CDN Monthly Supplement), and the contents of the Quarterly will rotate every three months; the following chart outlines the publishing schedule:

**Quarterly 1:** published Jan.; Apr.; July; Oct.; will contain Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

**Quarterly 2:** published Feb.; May; Aug.; Nov.; will contain Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

**Quarterly 3:** published Mar.; June; Sept.; Dec.; will contain Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the Quarterly will regularly contain 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

As part of their subscription package, subscribers to the CDN will now receive current pricing information on every regular issue U.S. coin; in fact, it will be like receiving four copies of an annual pricing guide, with the advantage that prices will be up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving coin issues.

The April, May & June sections of the CDN Quarterly will follow a special criteria for making changes in the price levels. Upward adjustments will be marked by a *plus* sign; in this rising market, declines are not noted, since they are almost entirely refinements made to our initial listings and *not* the result of market activity. Changes made on the *Proof* page in these issues will be marked normally, and minus signs are the result of market activity.

## Using the CDN Quarterly

The CDN Quarterly, like the weekly Coin Dealer Newsletter and the CDN Monthly Supplement, reports prices based on national dealer-to-dealer buying and selling information. These wholesale prices result from our monitoring all possible transactions, and offers to buy and sell coins on a *sight-seen* basis. The coins may be certified or "raw" (uncertified), but the grading **must adhere** to the current leading standard. Prices reported also consider activity in the certified *sight-unseen* market (PCGS & NGC); "Raw" coins may be higher or lower than certified specimens due to current market conditions. The CDN Quarterly prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally be used to raise CDN Quarterly prices, and a lower Sell will normally be used to lower them.

It should be emphasized that the CDN Quarterly reports the *highest wholesale* prices seen nationally; these prices assume a *willing and knowledgeable* buyer. The actual buying offer received from a dealer for a rarer coin depends largely on the current availability of a customer for such a coin; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must take this into account before purchasing on behalf of inventory. Rarity will also play a key role in dealers' selling prices; a dealer may wish to receive a substantial premium for extremely scarce coins. On rare issues, the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These *wholesale* prices should not be misinterpreted by *retail* clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples of that particular range. Numismatists realize that there is wide variation in looks and attractiveness within a particular grade, and that a coin must stand on its own merits. This is the heart of the concept of *sight-seen* trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Additionally, prices will be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors which go into the final grading of a coin. Prices listed are for 'no-problem' coins.

Where no reliable pricing information is available, a tilde ("~") will be placed in the charts. An "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

# When Great Collections are Sold, Bowers and Merena Sells Them.

Auctions by Bowers and Merena has won more "Catalogue of the Year" awards than all of its competitors combined! Shown here are just a few of the many landmark catalogues we have produced. Also pictured is the 1861 Paquet \$20 we sold from the Norweb Collection for a record \$660,000.

**A**uctions by Bowers and Merena, Inc. invites you to consign your coins to our 1992 auction season. Right now we are accepting consignments for our next several sales. Contact us today!

## UNEQUALED RECORD OF AUCTION SUCCESS

**W**hen you consign to Bowers and Merena, you consign to a firm with an unequalled record of auction success. Consider, for example, that of the top ten world's record auction prices for individual coins, we hold eight; including six of the top seven! Consider, also, that of the top four most valuable collections ever auctioned, we catalogued and auctioned three! The \$25 million Garrett collection for The Johns Hopkins University, the \$20 million Norweb Collection, and the \$12.4 million Eliasberg Collection of U.S. Gold Coins.

## UNEQUALED WORLDWIDE CLIENTELE

**T**he same bidders who have set world's records will be bidding on your coins, too. Our unequalled worldwide clientele of industrialists, capitalists, financiers, museums, investors, and leading numismatists will compete for your material. What we have done for so many others over the years—over \$200,000,000 worth of coins sold for over 10,000 consignors—we can do for you.

### The CDN Quarterly Sequence

The CDN Quarterly is part of the total CDN subscription package. One section of the Quarterly is sent every month to our CDN subscribers (along with their CDN Monthly Supplement), and the contents of the Quarterly will rotate every three months. The following chart outlines the publishing schedule:

**Quarterly 1:** published Jan.; Apr.; July; Oct.; will contain Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

**Quarterly 2:** published Feb.; May; Aug.; Nov.; will contain Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

**Quarterly 3:** published Mar.; June; Sept.; Dec.; will contain Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the Quarterly will regularly contain 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly issues included in your subscription, subscribers to the CDN now receive **current** pricing information on every regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices will be up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

### Using the CDN Quarterly

CDN publications report prices based on national **dealer-to-dealer** buying and selling information. These **wholesale** prices result from our monitoring all possible **sight-seen** transactions and offers to buy and sell coins. The coins may be certified or "raw", but the grading **must adhere** to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). CDN Quarterly prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally be used to raise CDN Quarterly prices, and a lower Sell will normally be used to lower them.

The CDN Quarterly reports the **highest wholesale** prices seen nationally, which assume a **willing and knowledgeable** buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer for such a coin; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

# When Great Collections are Sold, Bowers and Merena Sells Them.

Auctions by Bowers and Merena has won more "Catalogue of the Year" awards than all of its competitors combined! Shown here are just a few of the many landmark catalogues we have produced. Also pictured is the 1861 Paquet \$20 we sold from the Norweb Collection for a record \$660,000.

**A**uctions by Bowers and Merena, Inc. invites you to consign your coins to our 1992 auction season. Right now we are accepting consignments for our next several sales. Contact us today!

## UNEQUALED RECORD OF AUCTION SUCCESS

**W**hen you consign to Bowers and Merena, you consign to a firm with an unequalled record of auction success. Consider, for example, that of the top ten world's record auction prices for individual coins, we hold eight; including six of the top seven! Consider, also, that of the top four most valuable collections ever auctioned, we catalogued and auctioned three! The \$25 million Garrett collection for The Johns Hopkins University, the \$20 million Norweb Collection, and the \$12.4 million Eliasberg Collection of U.S. Gold Coins.

## UNEQUALED WORLDWIDE CLIENTELE

**T**he same bidders who have set world's records will be bidding on your coins, too. Our unequalled worldwide clientele of industrialists, capitalists, financiers, museums, investors, and leading numismatists will compete for your material. What we have done for so many others over the years—over \$200,000,000 worth of coins sold for over 10,000 consignors—we can do for you.

## The CDN Quarterly Sequence

The CDN Quarterly is part of the total CDN subscription package. One section of the Quarterly is sent every month to our CDN subscribers (along with their CDN Monthly Supplement), and the contents of the Quarterly will rotate every three months. The following chart outlines the publishing schedule:

**Quarterly 1:** published Jan.; Apr.; July; Oct.; will contain Half Cents, Large Cents, Half Dimes, Dimes through 1891, Twenty Cents, and Quarter Dollars through 1891; and all by date in standard grades!

**Quarterly 2:** published Feb.; May; Aug.; Nov.; will contain Half Dollars through 1891, Dollars through 1873; Trade Dollars, Gold Dollars, Quarter Eagles through 1907, Three Dollar Gold; and all by date in standard grades!

**Quarterly 3:** published Mar.; June; Sept.; Dec.; will contain Four Dollar Gold, Half Eagles through 1908; Eagles through 1907, Double Eagles through 1907; and all by date in standard grades!

Plus, the Quarterly will regularly contain 'centerfolds' with: Proof Cents; Proof Two Cents; Proof Three Cent Silvers; Proof Three Cent Nickels; Proof Nickels; Proof Barber Dimes, Quarters, & Halves; Proof Dollars; and all by date in standard grades!

Combining the weekly, monthly and quarterly issues included in your subscription, subscribers to the CDN now receive **current** pricing information on **every** regular issue U.S. coin; in fact, it is like receiving four copies of an annual pricing guide, with the advantage that prices will be up-to-date when you receive them! All this, plus weekly and monthly updates on faster-moving issues.

## Using the CDN Quarterly

CDN publications report prices based on national dealer-to-dealer buying and selling information. These **wholesale** prices result from our monitoring **all** possible **sight-seen** transactions and offers to buy and sell coins. The coins may be certified or "raw", but the grading **must** adhere to the current leading standard. Prices also consider activity in the certified **sight-unseen** market (PCGS & NGC). CDN Quarterly prices will be strongly influenced by Sells which are lower than listed levels. A higher Bid will normally be used to raise CDN Quarterly prices, and a lower Sell will normally be used to lower them.

The CDN Quarterly reports the **highest** wholesale prices seen nationally, which assume a **willing** and **knowledgeable** buyer. The actual buying offer for a rarer coin depends largely on the availability of a customer for such a coin; on occasion, customer demand may be weaker for rarer dates or varieties, and dealers must consider this before purchasing for inventory. Rarity also plays a key role in selling prices, with a substantial premium asked for extremely scarce coins; the wholesale asking price may be multiples of the listed Bid price. Prices on more-frequently traded coins will reflect the greater activity; prices on less-frequently traded coins may reflect last-known information. These **wholesale** prices should not be misinterpreted by **retail** clients as levels at which coins can be bought or sold; wholesale buying requires a substantial market presence.

Prices listed are for typical examples; numismatists expect a wide variation in looks and attractiveness within a particular grade. A coin must stand on its own merits; this is the heart of **sight-seen** trading. Bronze coinage is especially susceptible to spotting, and severely spotted issues may command a lower price. Prices will also be affected by cleaning, planchet flaws or porosity, rim nicks, and other factors in the final grading of a coin. Prices listed are for 'no-problem' coins.

A tilde ("~") indicates no reliable pricing information is available; an "n/m" indicates that none were made. Prices in the XF columns are for coins graded XF40; AU columns are for coins graded AU50.

## NOW ACCEPTING CONSIGNMENTS

We are now seeking quality United States coins  
for our February, 1993 pre-Long Beach auction.

### **Dateline: Orlando, August 10th, 7:33 P.M.**

Chicago-area collector Robert Deland had responded to one of our ads and contacted us about auctioning a coin he possessed. He owned an 1894-S Dime, a legendary rarity, and chose Superior to give him the best publicity and realize the highest price. We sold this coin for \$165,000 at our auction prior to the ANA Convention.

# When Great Collections are Sold, Bowers and Merena Sells Them.

Auctions by Bowers and Merena has won more "Catalogue of the Year" awards than all of its competitors combined! Shown here are just a few of the many landmark catalogues we have produced. Also pictured is the 1861 Paquet \$20 we sold from the Norweb Collection for a record \$660,000.

**A**uctions by Bowers and Merena, Inc. invites you to consign your coins to our 1992 auction season. Right now we are accepting consignments for our next several sales. Contact us today!

## UNEQUALED RECORD OF AUCTION SUCCESS

**W**hen you consign to Bowers and Merena, you consign to a firm with an unequalled record of auction success. Consider, for example, that of the top ten world's record auction prices for individual coins, we hold eight; including six of the top seven! Consider, also, that of the top four most valuable collections ever auctioned, we catalogued and auctioned three! The \$25 million Garrett collection for The Johns Hopkins University, the \$20 million Norweb Collection, and the \$12.4 million Eliasberg Collection of U.S. Gold Coins.

## UNEQUALED WORLDWIDE CLIENTELE

**T**he same bidders who have set world's records will be bidding on your coins, too. Our unequalled worldwide clientele of industrialists, capitalists, financiers, museums, investors, and leading numismatists will compete for your material. What we have done for so many others over the years—over \$200,000,000 worth of coins sold for over 10,000 consignors—we can do for you.
